감성채굴은 독일 디 노위에 잠을 룽 Die Neue Sammlung이 처음으로 한국의 젊은 공예가들을 초대하여 뮌헨 피나코텍 데어 모데르네 Pinakothek der Moderne에서 그들의 작품을 소개하는 전시이다. 감성채굴은 한국의 젊은 공예가들이 여기 일부 결과물을 제시한 것과 같이 그들의 세계를 만들어가는 일에 대한 은유이다. 창작은 자연의 세계 혹은 우리가 평소 주목하지 않는 일상적인 것으로부터 무언가를 발견하고 그것에 새로운 의미를 부여하는 일이다. 한국의 국민대학교에서 함께 연구하는 젊은 작가들에게 특히 중요한 것은 그들이 속해있는 물질적 환경으로부터 무언가를 찾아내 각자의 언어로 삼는 일이다. 그것은 마치 대지 밑에서 광맥을 찾고 귀한 물질을 발굴해가는 광부의 일과 같다. 이들이 찾아내는 재료는 사물이 되고 기호가 되고 다시 우리의 삶을 구성하는 환경의 일부가 된다. 이 학교의 스튜디오에서는 한국의 여러 곳으로부터 온 열정에 가득 찬 젊은이들이 지난 45년 동안 이 학교를 졸업한 한국의 주요 작가들의 뒤를 잇고 있다. 이들은 전통적으로 한국인이 강조하는 장인적 기술을 공유하되 오늘의 동시대성을 호흡하는 다양한 형식으로 전통을 넘어선다. 이들은 지적이며 감성적인 광부들이다. 이들의 스튜디오는 광맥이 얹혀있는 광산이며, 그 속에서의 몰입은 가장 진지한 채굴의 과정이다.

**Mindful Mining** präsentiert auf Einladung der Neuen Sammlung erstmals Arbeiten junger koreanischer Gold- und Silberschmiede in der Pinakothek der Moderne in München. Der Ausstellungstitel Mindful Mining (dt. behutsamer Abbau) steht als Metapher für das Erschaffen einer ganz eigenen Welt. Zu entwerfen bedeutet, etwas in der Natur oder im alltäglichen Umfeld zu entdecken, dem man gewöhnlich wenig Aufmerksamkeit schenkt und dem eine neue Bedeutung verliehen wird. Für die jungen Künstler der Kookmin University in Korea ist es besonders wichtig, etwas in ihrem eigenen Umfeld zu finden und in eine andere Sprache zu übertragen. Die Vorgehensweise gleicht der Arbeit eines Bergarbeiters, der im Erdreich nach einer kostbaren Erzader sucht. Die Fundstücke der Studierenden werden zu Objekten, Symbolen und so wiederum Teil unserer Welt. Im Atelier der Kookmin University arbeiten junge Studenten aus verschiedenen Teilen Koreas zusammen. Viele der Hochschulabsolventen aus den vergangenen 45 Jahren sind heute erfolgreiche und international tätige Silberschmiede und Schmuckkünstler. Im Department für Metall und Schmuck erschaffen sie mit Materialien und Formen ihre ganz eigene Welt. Mit ihren Arbeiten überwinden sie herkömmliche Grenzen und greifen globale Trends auf, obgleich sie stets ihre gemeinsame kunsthandwerkliche Basis unterstreichen. Es sind intelligente und einfühlsame ‘Bergarbeiter’. Ihr Atelier gleicht einer von Erzadern durchzogenen Mine, in die sie mit größter Behutsamkeit hinabtauchen.

**Mindful Mining** is an exhibition of young Korean goldsmiths and silversmiths, invited for the first time by Die Neue Sammlung, and takes place at the Pinakothek der Moderne in Munich. Mindful Mining is a metaphor for creating their own world, as some of the results presented here by young Korean artists. Creation is the discovery of something from the nature or the ordinary things we are not particularly conscious of, and giving it a new meaning. For these young artists from Kookmin University in Korea, it is especially important to find something from the material world they belong to and make it into their own language. It's like a miner's job to find a vein from a ordinary earth and excavate precious materials. The materials they find become objects, symbols, and again become part of the environment that makes up our lives. In the studio at Kookmin university, young artists from various parts of Korea work together who succeed many jewelry artists and metalsmiths who have graduated from this school for the last 45 years and are currently active on the international stage. Those in the department of metalwork and jewelry create their own world with materials and forms that cross traditional boundaries to meet global trends today, even though they have a common basis of craftsmanship that Koreans particularly emphasize. They are intelligent and sensitive miners. Their studio is a mine intertwined with vein of ore, and immersion in it is a process of the most mindful mining.
